

Waninthorn Tepbundalsuk

Position Sought : Software Developer

- Contact** 082-1082688
- Email** waninthorn.ts@gmail.com
- Education** Burapha University
Bachelor of Software
Engineering, Informatics
2020-2024 (GPA: 3.14)

Technical Skills

- IntelliJ
- Figma
- Draw.io
- Prepros
- Xampp
- Dbeaver
- Postman
- Sourcetree
- Jira
- Jenkins
- Confluence
- Lucid Chart
- Visual Paradigm
- Visual Studio Code
- Microsoft Visual Studio
- Microsoft Word
- Microsoft Excel
- Microsoft Power Point
- MySQL workbench
- SQL Server Management Studio

Programing Skills

- C/C++
- CSS
- C#
- HTML
- PHP
- SQL
- Java
- JavaScript
- TypeScript
- .Net
- Angular
- Tailwind
- Vue.js
- Nuxt.js
- React
- Lumen
- Spring Boot
- Flutter
- Codeigniter
- Bootstrap
- SASS

Soft Skills

- Communication
- Time Management
- Conflict Resolution
- Ability to Work Under Pressure

Certifications

Open Source Software Developer Camp #10 (April 7-14, 2022)

- Organized by the Software Engineering Program
- Participated in an intensive Agile/Scrum software development camp.
- Collaborated in a cross-functional team to develop a software solution for a company client.
- Worked through the complete software development lifecycle, including requirement analysis, sprint planning, development, testing, and final project presentation.
- Presented the final product in a team competition evaluated by industry representatives.

Work Experience

Jan 2026 - Present

Smart Go System Development Co., Ltd. (Full Stack Developer)

- Developed full-stack web applications using Angular and C# .NET.
- Designed and implemented business workflows for a Warehouse Management System (WMS), including inventory and warehouse operations and developed an e-commerce platform for pharmaceutical retailers, allowing customers to browse products, place orders, and manage purchases.
- Built and integrated RESTful APIs with frontend applications and SQL Server databases.

Language → C#, TypeScript, JavaScript, HTML5, CSS3/SCSS, SQL

Tools → Visual Studio, Visual Studio Code, GitLab, SourceTree, Postman, Figma

May 2024 - December 2025

Chareon Tut Co., Ltd. (Full Stack Developer Onsite-AIS)

- Developed and maintained a web portal for a leading telecommunications company using Nuxt.js, Vue.js, JavaScript, HTML, CSS, and SQL.
- Designed and implemented responsive UI components with Tailwind CSS and Bootstrap, ensuring cross-browser compatibility.
- Integrated frontend applications with backend APIs and database services to support business operations.
- Collaborated with Business Analysts, QA, and backend developers to deliver new features and resolve production issues.
- Participated in code reviews, version control (GitLab), and deployment processes to improve code quality and maintainability.
- Utilized Figma, Postman, and SourceTree throughout the development lifecycle.

Language → JavaScript, HTML5, CSS3/SCSS, SQL

Tools → Nuxt.js, Vue.js, SASS, Tailwind, Bootstrap, VsCode, Sourcetree
Gitlab, Visual Studio Code, Figma, Postman

Oct 2023 - Apr 2024

ClickNext Co., Ltd. (Full Stack Developer)

- Developed and maintained frontend applications for multiple government digital platforms using HTML, CSS/SCSS, JavaScript, PHP, and SQL.
- Implemented responsive and user-friendly interfaces based on UI/UX designs and business requirements.
- Collaborated closely with Business Analysts, Designers, and Backend Developers to deliver new features and system enhancements.
- Integrated frontend pages with RESTful APIs and validated data using Postman and MySQL.
- Improved application usability by resolving UI defects, optimizing layouts, and refactoring existing frontend code.
- Participated in system testing, bug fixing, deployment support, and maintenance throughout the Software Development Life Cycle (SDLC).
- Utilized GitLab and SourceTree for version control and team collaboration.

Language → PHP, JavaScript, HTML5, CSS3/SCSS, SQL

Tools → Sourcetree, Gitlab, Visual Studio Code, Figma, Postman, Xampp
MySQL Workbench, Prepros

Apr 2023 - Sep 2023 (Internship)

ClickNext Co., Ltd. (Business Analyst Intern)

E-Meeting System

- Prepared business and technical documentation, including User Manual, User Acceptance Test (UAT) Reports, API Documentation, SRSD, and Functional Specifications.
- Conducted end-user training sessions and provided system onboarding support.
- Coordinated User Acceptance Testing (UAT) and supported system go-live activities.

System Official Line Account Service (Banking) & Loyalty Program (CRM)

- Assisted in gathering business requirements and translating them into functional specifications.
- Designed UX wireframes and user flow concepts to improve usability.
- Prepared project documents, including proposals, quotations, and requirement documentation.

Telemedicine System (Hospital) & Telemedicine System (Ambulance) & Ministry System & Court System

- Gathered and analyzed business requirements through stakeholder discussions.
- Designed UX wireframes and collaborated with the development team on workflow and system design.
- Coordinated project progress by tracking tasks and ensuring alignment with project timelines.
- Produced project documentation such as Project Plans, Proposals, SRSD, Functional Specifications, Presentation Materials, and Task Tracking Reports.
